05 Brand Elements

Introduction

This document is the official blueprint for the Dragon Bay visual identity. It has been meticulously crafted to ensure that our brand remains consistent, powerful, and recognizable across every touchpoint. By adhering to the standards, we protect the integrity of our brand and reinforce our position as a dominant leader in the global logistics market.

About the Brand

Dragon Bay is global supply chain, dedicated for international markets and local businesses. As a dominant player in cross-border logistics, the company focuses on providing end-to-end supply chain solutions that prioritize security, scale, and seamless transport. By combining advanced tracking technology with a massive physical infrastructure, we ensure that the world’s commerce moves without interruption.

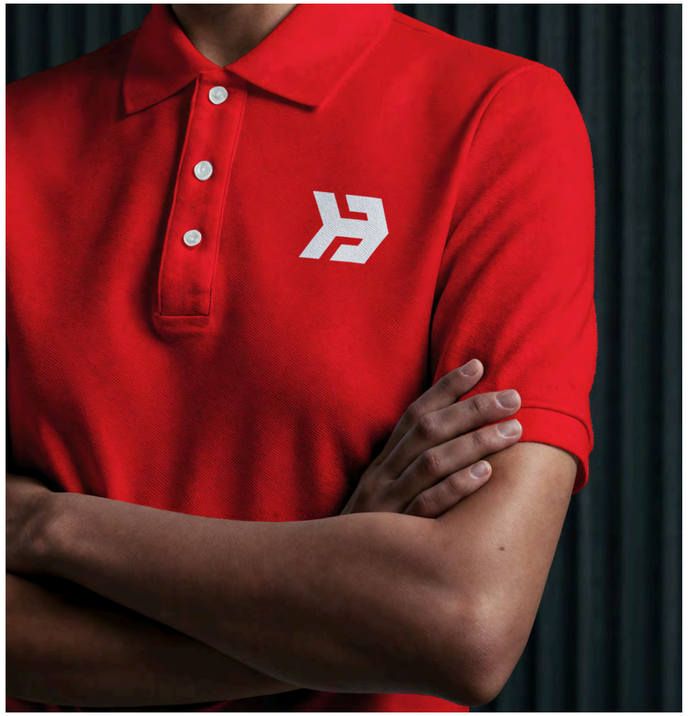

The Core Identity

The brand is built on the pillars of Industrial Strength and B2B Trust. Whether managing large-scale imports or complex warehouse logistics, Dragon Bay acts as a "Guardian" for its clients' cargo, ensuring every shipment is handled with absolute authority and professional care. Our identity represents the power of a market leader & a brand that is both bold and fundamentally safe.

The Vision

We aim to establish a visual and operational presence that defines the future of global trade. Our vision is to be the most reliable and scalable logistics partner in the industrial market. We strive to empower wholesalers and large-scale importers by providing an ironclad foundation for their growth, making global expansion accessible and secure for every partner we serve.

Brand Logo

The Dragon Bay identity is built on a versatile logo system designed to maintain maximum impact across diverse logistics environments. By separating the core symbol from the typography, we ensure the brand remains adaptable—whether it's displayed on the side of a massive cargo ship or a sleek digital interface.

Symbol

Primary Wordmark

Symbol

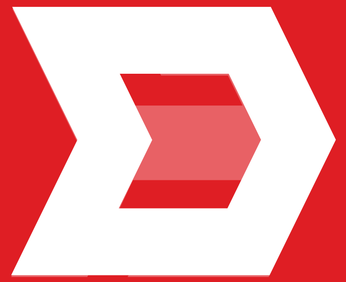

Secondary Wordmark

Logomark

The Dragon Bay symbol is a result of purposeful geometric engineering, designed to embody the core values of modern logistics. By merging literal maritime elements with abstract directional cues, we have created a mark that feels both balanced and indestructible.

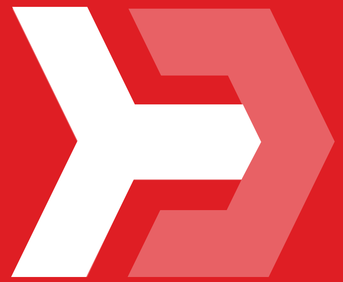

D Shape

The geometric structure forms a bold "D," representing the brand name while creating a solid foundation of industrial strength.

Ship’s Propeller

The interlocking blades represent ship’s propeller, symbolizing the mechanical power and propulsion behind maritime logistics.

Forward Arrow

The sharp, right-pointing geometry forms a forward arrow, which communicates speed and efficiency of the supply chain.

Wordmark

The Dragon Bay wordmark made out of a font called “Bridger Nature”which features a heavy slanted structure that reflects a brand identity never feels static, communicating a constant state of progress and efficiency. Anchored by a solid horizon line, this wordmark serves as a bold, unmistakable signature of reliability across all physical and digital platforms.

Heavy, bold stems provide structural integrity and immovable industrial stability.

Angular spikes represent dragon horns, symbolizing authority and sharp precision.

The forward-leaning slant communicates speed and constant supply chain movement.

The solid horizontal bar represents the bay and a grounded maritime foundation.

DRAGON BAY

Safe Zone

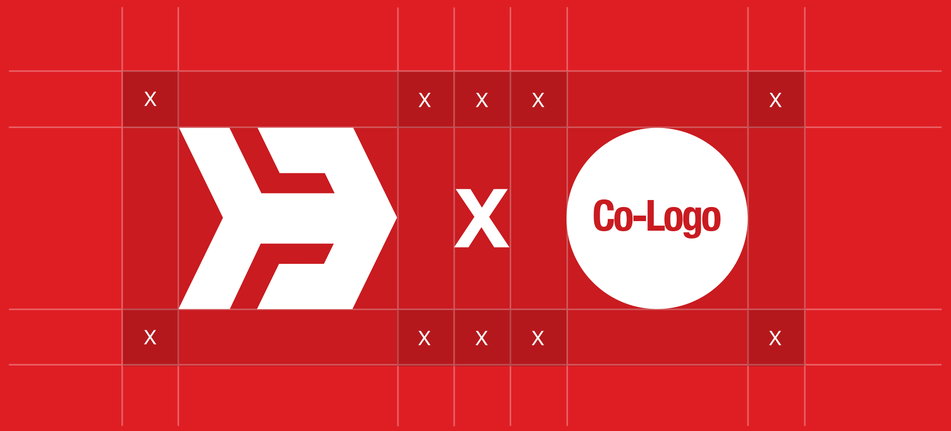

To maintain the visual integrity and impact of the Dragon Bay identity, a mandatory area of clear space must be maintained around the logo at all times. This protective buffer ensures the mark remains prominent and prevents interference from other graphic elements, text, or page borders.

Co-Branding

Co-branding clear space ensures that both logos in a partnership are displayed with absolute clarity while maintaining their individual integrity. By establishing a dedicated safe zone, these guidelines prevent visual clutter and ensure both identities stand out equally. Maintaining this protective area ensures that the partnership remains visually balanced and aligned, reinforcing the collaboration while preserving the distinct recognition of each brand.

Logo Rules

To maintain the integrity, the logo must never be altered, modified, or distorted. Its orientation, color, and composition must remain exactly as indicated in this document to ensure consistent professional authority.

The examples on this page illustrate common mistakes that compromise the brand's visual strength. These rules apply to all elements of the identity system, including the standalone symbol, the primary wordmark, and all lockup variations.

Never stretch, squeeze, or skew the proportions of the logo

Do not introduce unapproved colors or gradients

Do not add drop shadows, or glows to this logo

Do not rotate this logo

Do not re-arrange the logo

Do not create outlines to this logo

Typography

Helvetica Neue font has been selected to communicate clarity, modernism, and industrial precision. As a world-standard in typeface, its clean, neutral letterforms provide the perfect functional balance to our sharp, custom wordmark. This choice ensures that wherever it is used, the brand maintains a high level of legibility and a "Safe" professional tone that resonates with large-scale B2B clients and global partners.

Guidelines

The typography guidelines serve as a strategic roadmap to ensure absolute consistency across all Dragon Bay touchpoints. To maintain our professional and industrial tone, it is essential to adhere to these specific rules for weight, tracking, and scale. Using this system correctly ensures that our communication remains as structured and reliable as our logistics operations.

Dragon Bay provides end-to-end logistics and maritime transport services designed for maximum security and global scale. By utilizing a "Red-First" visual strategy and professional-grade typography, we ensure that every shipment—from heavy-duty industrial cargo to time-sensitive B2B deliveries—is backed by an ironclad foundation of trust and precision. Our commitment to excellence is reflected in our attention to detail, ensuring that our visual communication remains as reliable and efficient as the supply chains we manage. Whether viewed on a high-resolution digital dashboard or a physical shipping manifest, our typography maintains absolute clarity to support the constant movement of international commerce.

Colors

This colour palette establishes a recognizable visual identity for Dragon Bay. Consistent use of these specific colors across all over the place helps evoke the right emotions, reinforces brand messaging, and enhances brand recall. It ensures that the brand's look remains uniform across various platforms, from digital to print, creating a strong and memorable association with the brand.

Hero Color

This is the primary color of the brand- the most dominant and frequently used. When people think of your brand, they think of this color.

Vivid Red
HEX: #E01E25
RGB: 224, 30, 37
CMYK: 0, 87, 83, 12
Web Safe: #cc3333

Accent Color

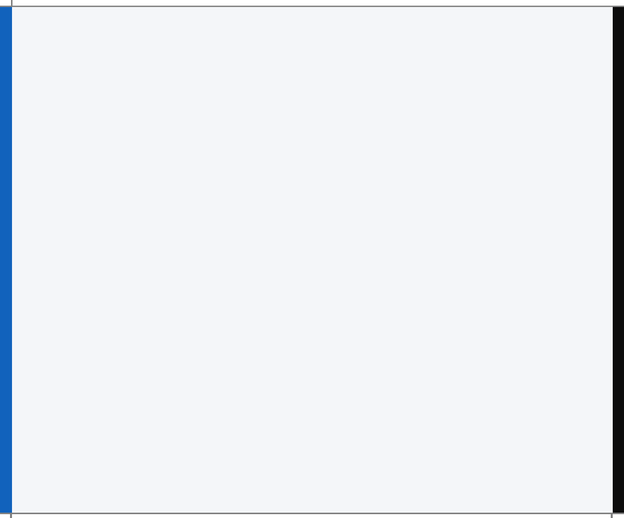

Accent colors are used to highlight important elements and to break the monotony of hero & neutral colors. They’re great for catching attention.

Strong Blue
HEX: #1163BD
RGB: 17, 99, 189
CMYK: 91, 48, 0, 26
Web Safe: #0066cc

Neutral Color

Neutral colors include shades of white, black, red or blue. There should be a light neutral & dark neutral in brands color palette.

Light Grayish Blue.
HEX: #f5f7fa
RGB: 245, 247, 250
CMYK: 2, 1, 0, 2
Web Safe: #ffffff

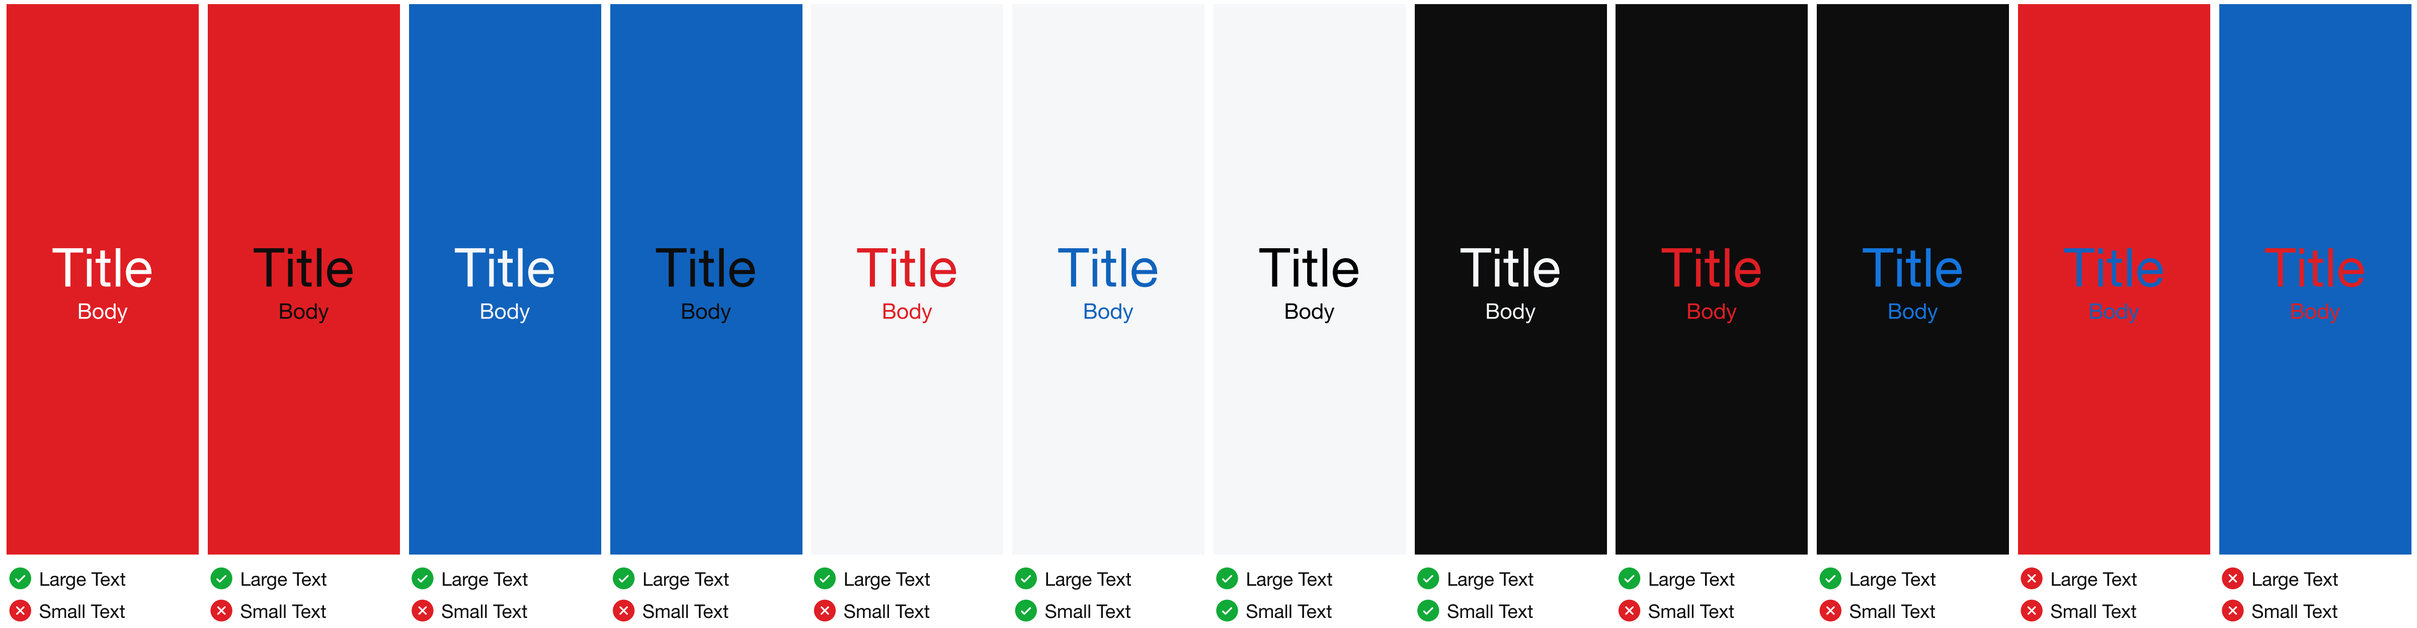

Darker Gray
HEX: #0d0d0d
RGB: 13, 13, 13
CMYK: 0, 0, 0, 95
Web Safe: #000000

Color Usage

When applying brand colors to text and supporting elements, strictly follow the Color Pairings and Color Hierarchy guidelines. To maintain visual consistency, do not introduce outside colors and avoid the prohibited combinations that create poor harmony or excessive contrast.

Correct Pairings

Color Hierarchy

Brand Patterns

The Dragon Bay brand patterns are a rhythmic extension of our core visual style, utilizing the "Propeller" and "Forward Arrow" geometry to create a sense of perpetual motion. These patterns are designed to add depth and texture to large-scale surfaces, such as warehouse walls, packaging interiors, or digital backgrounds.

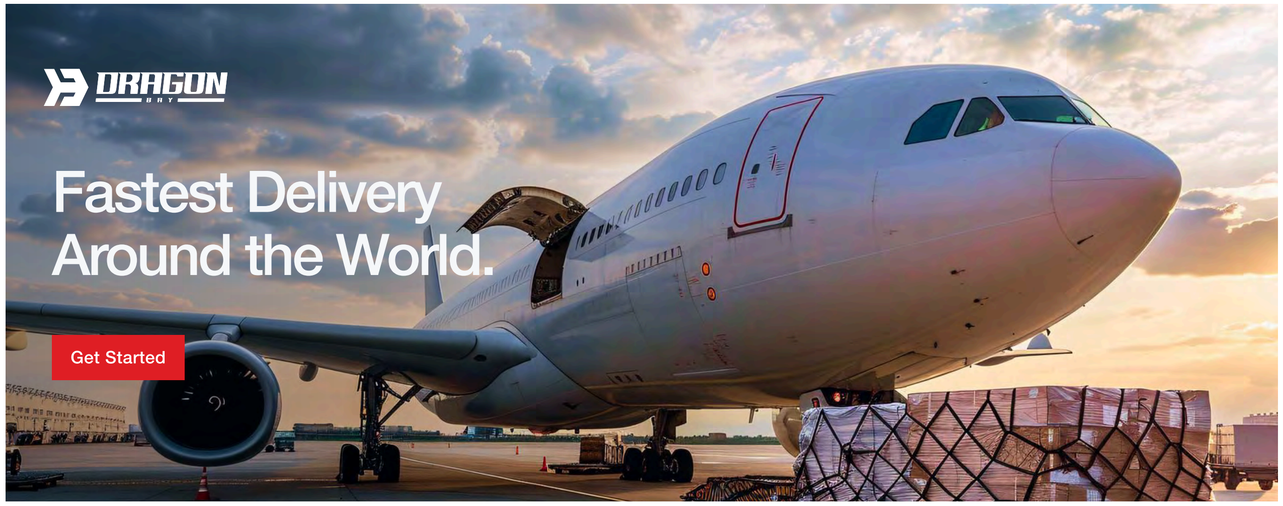

Photography

Brand’s photography style should feel authentic, cinematic, and high-contrast, avoiding overly staged or "stock-looking" scenes. We prioritize wide-angle perspectives of shipping ports, heavy-duty machinery, and organized warehouse environments to reinforce authority.

Lighting should be natural yet dramatic, utilizing the "Golden Hour" or cool industrial blue tones to highlight the structural integrity of the supply chain. When people are included, they should appear professional, focused, and in-action.

A STATEMENT FROM DRAGON BAY
We are the infrastructure of trust.
In A World That Never Sleeps, Dragon Bay Stands As The Immovable Anchor Of Global Commerce. We Do Not Just Provide Logistics; We Provide The Structural Integrity That Allows International Trade To Breathe.
We are the momentum of modern industry.
From The Deep-Water Ports Of The East To The Final Mile Of The West, Our Shield Is A Promise Of Absolute Protection. Every Monolithic Container We Move, Every Vessel We Guide, And Every Digital Byte We Track Is Engineered For One Purpose: Total Reliability.
We are the guardians of your growth.
Borders Are Not Barriers—They Are The Milestones Of Our Partnership. As You Scale, We Scale. As You Move, We Move. We Are The Silent Power Behind Your Supply Chain, The Mechanical Heart Of Your Operations, And The Unwavering Force That Bridges The Gap Between Today's Inventory And Tomorrow's Success.
Sincerely
Executive Head, Dragon Bay
